

Following the success of [the previous lectures](#), the Association is happy to confirm that Open Lecture 8 will take place on June 20, 2024, at 14h00 CEST, covering the subject of Next Generation MIMO.

AGENDA

14:00 Welcome & opening

Martin Schubert
Huawei Technologies

14:05 Fairness scheduling and fronthaul optimization in cell-free user-centric scalable mMIMO networks

Giuseppe Caire
Technical University Berlin

14:30 Spatial multiplexing in the radiative near-field

Emil Björnson
KTH Royal Institute of Technology

14:55 Advancements in fluid antenna systems for MIMO communication: A path to enhanced wireless connectivity

José Francisco Monserrat del Río
Technical University of Valencia

15:20 one6G work item on next generation MIMO: Multiuser strategies for user-centric cell free MIMO

Martin Schubert
Huawei Technologies

15:45 Q&A session and closing
